PROFESSIONAL EXPERIENCE

Frontend Developer (Angular)

[Manteio IT Solutions] — 2.5 Years

- Led the frontend team as **Team Lead**, conducted **technical interviews**, **trained interns** and performed code reviews.
- Built responsive Angular applications using **Angular material**, **Bootstrap**, **media queries**, and **reactive forms** with validations.
- Developed **reusable UI components** to improve application maintainability and scalability.
- Integrated Angular applications with **.NET backend APIs** and contributed to **backend PDF generation** for accounting and **taxation forms** using **WkhtmlToPdf** library.
- Collaborated closely with backend developers, QA, BA teams, and stakeholders in an Agile environment.

SKILLS

Frontend Languages: HTML5, CSS3, SCSS, JavaScript, TypeScript

Frontend Frameworks: Angular, Bootstrap, Angular Material

Backend & Database: .NET / ASP.NET (Basic), SQL Server (Basic)

Tools & IDEs: Visual Studio, Visual Studio Code, Postman, Swagger

KEY PROJECTS

Taxmize Accounting Software

- Developed a **financial web application** for **filing taxes** to the **US government**, aligned with **IRS-style workflows**.
- Built complex, **form-driven UI modules** (Income, Deductions, Credits, Taxes) using **Angular Reactive Forms**.
- Implemented **dynamic sections**, **conditional validations**, and user-driven form logic
- Designed **responsive, structured layouts** using **media queries** to match government tax form standards.
- Integrated the frontend with **backend APIs** and **coordinated on backend PDF form generation** using **.NET (WkhtmlToPdf library)**.

Safe Home – Community Management Application

- Designed **responsive, user-friendly Angular UI screens** for a gated community application similar to **MyGate**.
- Developed UI modules for **Security, Maintenance, Services, Alerts, Events, Polls, Complaints, and Notices**.
- Built interfaces for **Resident Directory, Emergency Contacts, and Community Facility Booking** (Gym, Hall, Pool) with basic API integrations.

SutraFlow

- Developed **SutraFlow**, a **full-stack Employee Management System** handling end-to-end HR workflows including employee CRUD, onboarding, profile management, and document generation.
- Implemented frontend** using **Angular** standalone components, signals, Angular Material, with reusable components, custom directives/pipes, interceptor-based loaders, JWT token handling and Auth-Guards.
- Implemented backend** services using **ASP.NET Core Web API** with JWT authentication, authorization, validation, pagination, and clean separation of concerns following enterprise level clean architecture principles.
- Designed and integrated **dynamic PDF document generation** using **QuestPDF** library (**Offer, Joining, Experience, Increment, Promotion, Relieving letters**) with in-app preview and secure PDF download support.

EDUCATION

St. Mary's Group Of Institutions Hyderabad
B. Tech in Computer Science and Engineering

2022
Percentage: 62%

ADDITIONAL INTERESTS

- Singer, Guitarist, Pianist, Lyricist
